

WINNESHIEK COUNTY SECONDARY ROAD DEPARTMENT
PERMIT FOR APPLICATION OF RECYCLED ASPHALT

You are hereby granted permission to apply recycled asphalt to a portion of the secondary road located:

in Section _____, _____ Township, for the purpose of dust control.

In accepting this permit, you agree to the following conditions and understand that Winneshiek County will assume no responsibility for this work or damage to any vehicle caused by the material applied to the road.

1. Under this permit, applications of recycled asphalt may be applied by the undersigned during the months of May through August to rock surfaced roads. Application of material can be made only after Winneshiek County has reviewed the road and found conditions acceptable for application. Applicant shall be responsible for purchase and hauling of the material. Once spread, the material shall be bladed by the county. The recycled asphalt shall meet the IDOT Class A ¾" Road Stone specifications. The county reserves the right to waive any portion of the specification at any time when it is felt to be beneficial to the county.
2. Application rates (Tons/mile) will be predetermined by the County and may vary from roadway to roadway.
3. The County Engineer's Office (phone 382-2951) shall be notified at least three days in advance of new material application to permit proper preparation of the road surface. Application of the material shall be coordinated with the county's schedule.
4. After materials have been applied, the county shall maintain the roadway as dictated by policy. No special provisions shall be made for areas where recycled asphalt has been spread.
5. Winneshiek County reserves the right to scarify or blade any treated surface and to maintain it as a rock road.
